## About This Content

### SUMMER CATCHERS - ORIGINAL SOUNDTRACK

The soundtrack album consists of 33 tracks written from December 2015 to November 2018 by a Moscow-based indie studio **Geek Pilot Soundworks**.

Inspired by the synth sounds of the 80s music and videogame tunes and the **Summer Catchers** game itself, it is a labor of love which spanned 3 years in the making. We hope you like the soundtrack as much as we enjoyed composing it, it was a fun ride!

### FULL CREDITS
